

Dear Parents and Guardians,  
The Singapore International School at Le Chan, Hai Phong sincerely thanks all families for your continued trust, support, and partnership with our teachers and students.

Your encouragement has played a vital role in helping our students to complete Term 1 with enthusiasm, creativity, and great success.

As we reflect on the first months of the school year, we are proud to share some of the highlights and achievements from August and September.

This academic year marked a new beginning for both KIK and SIS divisions as we moved into a brand-new building. Teachers worked tirelessly to prepare bright, clean, and welcoming classrooms that inspired students to learn from the very first day.

The number of students enrolled has grown significantly — a clear sign of your confidence in our programme. Our teachers have successfully established daily routines for learning, play, and boarding, ensuring that every child feels safe, happy, and cared for.

Throughout Term 1, students have demonstrated excellent discipline, following both school and classroom rules responsibly. The academic programme and timetable were fully implemented, and teachers actively integrated technology into their lessons. Students also enjoyed opportunities to join online competitions and learning clubs aligned with their interests.

## Opening Ceremony 25-26

The school year began with a joyful and meaningful Back-to-School Day, welcoming all children after the summer holidays, especially our new students taking their first step into school life.

Following that, the Opening Ceremony for the 2025–2026 academic year was held in accordance with the Hai Phong Department of Education and Training's guidelines. The event highlighted our commitment to academic excellence and character development.

Mid-Autumn Celebration

Students enjoyed the Mid-Autumn celebration filled with music, lanterns, and traditional games. This joyful occasion not only strengthened cultural understanding but also created lasting memories for our learners.

## SIS In the classroom

In the classroom, students developed their knowledge and skills across all subjects, from Mathematics and English to Science, ICT, and Arts. Teachers applied differentiated strategies to support every learner's needs, ensuring lessons were interactive and purposeful.

Co-curricular clubs and after-school activities provided opportunities for students to explore their passions, from sports, to art and dance. These experiences build teamwork, confidence, and creativity beyond the academic curriculum.
